

FAITH

Don't
confuse
culture
and
faith

More awareness of
the increasing ^{desire} demand for
faith communities to address
mental health challenges
(Clinton + other faiths)

Plus enabling ^{mental health} services &
providers to take into
account a person's faith/spirituality
& involve communities

faith is a key
in many people's
mind - so when
in crisis people
should have a
understanding of
people's spiritual
needs
